

## SUPERCLAMP HANGING SYSTEM

The Superclamp system offers a revolutionary, yet simple design with almost endless applications for art gallery, museum, department store and architectural design displays.

### One touch lock adjustment function

- Inserting the cable will cause the clamp to lock in position, pushing the release pin will release the cable.

### Strong holding power

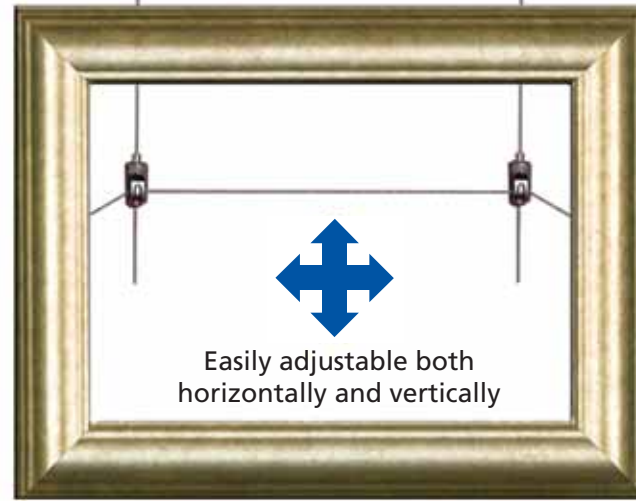

- The superior weight carrying capacity of the system suits a wide range of applications.

### Will not damage the cable

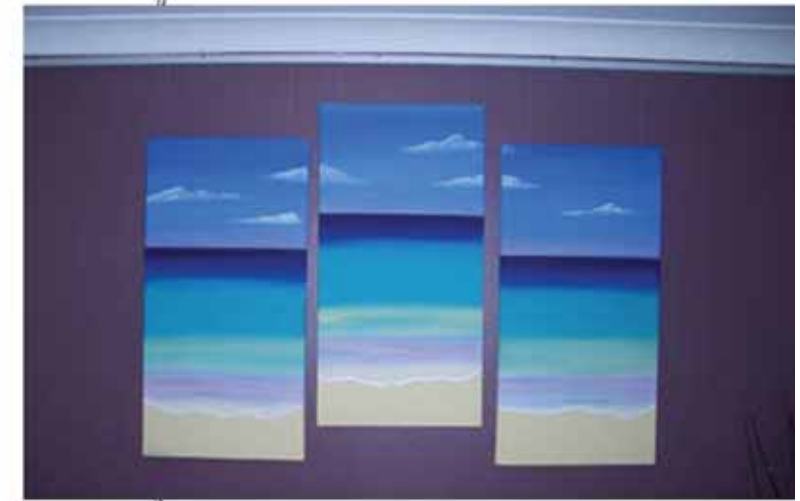

- Compared to the locking systems for older designs, it will not damage the cable or wire.
- The Superclamp is also more shock and vibration resistant than other systems.

### Multiple hanging capability

- Hang as many or as few items as you like.
- Will hang or suspend almost anything.

Easily adjustable both  
horizontally and vertically

### USED BY THE BEST:

National Gallery of Australia  
Art Bank  
Guggenheim Exhibition in Australia  
Lake Russell Gallery  
Mary McKillop Place  
National Portrait Gallery  
Museum of Contemporary Art  
Museum of Applied Arts and Science  
National Gallery of Victoria  
Western Australia Maritime Museum  
Bradman's Birthplace Museum  
Perc Tucker Gallery  
Reserve Bank of Australia
